FORMALITIES LETTER

OC000000111171492

Date Mailed: 08/18/2026

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

Filing Date Granted

An application number and filing date have been accorded to the above-identified nonprovisional application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

The application is informal since it does not comply with the regulations for the reason(s) indicated below.

The required item(s) identified below must be timely submitted to avoid abandonment:

- **Specification Items**

  The specification, claims, and/or abstract page(s) submitted is not acceptable because:
  - The line spacing on page(s) all of the specification is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper substitute specification in compliance with 37 CFR 1.121(b)(3) and 1.125, having the proper line spacing throughout, is required to satisfy this requirement. A statement that the substitute specification contains no new matter is required. However, a marked up version of the specification is not required for this correction.
  - The line spacing on page(s) all of the claims is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper claim listing, having the proper line spacing throughout, is required to satisfy this requirement.
  - The line spacing on page(s) all of the abstract is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper replacement abstract, having the proper line spacing throughout, is required to satisfy this requirement.
- **Drawing Items**

  The drawings submitted on 03/07/2026 are not acceptable because:
  - More than one figure is present and at least one figure appears to be unnumbered or misnumbered in comparison to the brief description of the figures contained in the specification. See Figure(s) 4A, 4B. The figures must be labeled "Fig." with a consecutive Arabic numeral (1, 2, etc.) or an Arabic numeral and capital letter in the English alphabet (1A, 1B, etc.) and correspond with a brief description having the same figure number. See 37 CFR 1.84(u)(1).
    - To correct the figure numbering, replacement drawing sheets with proper figure labeling in compliance with 37 CFR 1.84 and 1.121(d) are required.

- To add a brief description of a figure that was not previously numbered, or correct the reference in the specification to the figures, a proper substitute specification in compliance with 37 CFR 1.52, 1.121(b)(3), and 1.125, providing a brief description of each drawing figure presented, added or amended to correspond to the corrected numbering of the figures, is required. See also 37 CFR 1.77(b)(9).

- Figure(s) all contain excessive text. Suitable descriptive legends may be used, or may be required by the examiner where necessary for understanding of the drawing but should contain as few words as possible. See 37 CFR 1.84(o). Replacement drawing sheets without excessive text in compliance with 37 CFR 1.84 and 1.121(d) are required.
- The figure labeling in the application is improper. Each figure must be labeled "Fig." with a consecutive Arabic numeral (1, 2, etc.) or an Arabic numeral and capital letter in the English alphabet (1A, 1B, etc.), beginning with Figure 1 (or Figure 1A). See 37 CFR 1.84(u)(1). When properly labeled, each brief description of the figures contained in the specification must correspond to a properly labeled figure.
  - To correct the figure numbering, replacement drawing sheets with proper figure labeling in compliance with 37 CFR 1.84 and 1.121(d) are required.
  - To correct the reference in the specification, a proper substitute specification in compliance with 37 CFR 1.52, 1.121(b)(3), and 1.125, providing a brief description of the several views of the drawings corresponding to the corrected labeling of the figures, is required. See 37 CFR 1.74 and 1.77(b)(9).
- An abstract was submitted on 03/07/2026; however, the abstract does not commence on a separate sheet. A replacement abstract commencing on a separate sheet in compliance with 37 CFR 1.72(b) and 37 CFR 1.121 is required.

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

- The statutory basic filing fee has not been received.
- The application search fee must be submitted.
- The application examination fee must be submitted.
- Surcharge as set forth in 37 CFR 1.16(f) has not been received.

  The surcharge is due for any one of:
  - late submission of the basic filing fee, search fee, or examination fee,
  - late submission of inventor's oath or declaration,
  - filing an application that does not contain at least one claim on filing, or
  - submission of an application filed by reference to a previously filed application.
- The fee set forth in 37 CFR 1.16(u) for submitting documents not in DOCX format has not been received.

  The fee is due because:
  - the specification was not submitted in DOCX format.
  - the claims were not submitted in DOCX format.

  Note: The fee set forth in 37 CFR 1.16(u) is required if the specification, claims, and/or abstract do not conform to the USPTO requirements for submission in DOCX format. In addition, if applicants submit a PDF version of the specification, claims, and/or abstract that is not generated by the USPTO filing system and also includes a DOCX version of the specification, claims, and/or abstract, then the surcharge is required for the version of the specification, claims, and/or abstract that were submitted in PDF format. However, the fee set forth in 37 CFR 1.16(u) will not be required if applicant submitted an Auxiliary PDF in

compliance with the USPTO process for submitting an Auxiliary PDF that was automatically assigned the document code AUX.PDF.

SUMMARY OF FEES DUE:

The fee(s) required (including the fees noted above) are as follows. Small entity discount is in effect. If applicant is qualified for micro entity status, an acceptable Certification of Micro Entity Status must be submitted to establish micro entity status. (See 37 CFR 1.29 and forms PTO/SB/15A and 15B.)

- $**70** basic filing fee.
- $**172** non-DOCX fee.
- $**68** surcharge.
- $**308** search fee.
- $**352** examination fee.
- $(**450**) previous unapplied payment amount.
- $**520** TOTAL FEE BALANCE DUE.

Applicant is notified that the above-identified application contains the deficiencies noted below. No period for reply is set forth in this Notice for correction of these deficiencies. However, if a deficiency relates to the inventor's oath or declaration, the applicant must file an oath or declaration in compliance with 37 CFR 1.63, or a substitute statement in compliance with 37 CFR 1.64, executed by or with respect to each actual inventor no later than the expiration of the time period set in the "Notice of Allowability" to avoid abandonment. See 37 CFR 1.53(f).

Items Required To Avoid Processing Delays:

The deficiencies indicated below should be addressed promptly to avoid further processing delays.

- **The inventor's oath or declaration does not comply with 37 CFR 1.63 for the reason(s) below. An inventor's oath or declaration in compliance with 37 CFR 1.63 that identifies this application (e.g. by Application Number and filing date) must be submitted**.
  - The inventor's oath or declaration for the below named inventor(s) does not state that the above-identified application was made or authorized to be made by the person executing the oath or declaration.

    Reinaldo Javier Aguiar Marcano

This application, which was filed with an indication of micro entity status, fails to meet the requirements for establishing micro entity status because:

- Certification of micro entity status is missing. (See 37 CFR 1.29 and forms PTO/SB/15A and 15B.)

If micro entity status is established in reply to this notice by filing an acceptable Certification of Micro Entity Status, the fees itemized in the SUMMARY OF FEES DUE section of this Notice will be reduced to reflect the appropriate micro entity discount, and any previous payment amount may be applied to the discounted fees.

If applicant is not entitled to micro entity status under 37 CFR 1.29, applicant may still qualify for an appropriate reduction of fees if small entity status can be established under 37 CFR 1.27.

Replies must be received in the USPTO within the set time period or must include a proper Certificate of Mailing or Transmission under 37 CFR 1.8 with a mailing or transmission date within the set time period. For more information and a suggested format, see Form PTO/SB/92, MPEP 512, and www.uspto.gov/incomplete-application.

Replies should be addressed to:

Mail Stop Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

REPLY VIA ELECTRONIC FILING

A reply may be submitted via electronic filing only by registered users of the appropriate USPTO patent electronic filing system and must include:

- A separate document having the document description, "**Applicant response to Pre-Exam Formalities Notice**"; and
- the item(s) for which a reply period is set forth above.

For more information about electronic filing, contact the Patent Electronic Business Center (EBC) 1-866-217-9197 or visit https://www.uspto.gov/ebc

NOTE: If the reply is not being submitted electronically, a copy of this notice must be included.

Questions about the contents of this notice and the requirements it sets forth should be directed to the Office of Data Management, Application Assistance Unit, at **(571) 272-4000** or **(571) 272-4200** or **1-888-786-0101**.
