NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

Filing Date Granted

An application number and filing date have been accorded to the above-identified nonprovisional application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

The application is informal since it does not comply with the regulations for the reason(s) indicated below.

The required item(s) identified below must be timely submitted to avoid abandonment:

- **Specification Items**

  The specification, claims, and/or abstract page(s) submitted is not acceptable because:
  - The line spacing on page(s) all of the specification is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper substitute specification in compliance with 37 CFR 1.121(b)(3) and 1.125, having the proper line spacing throughout, is required to satisfy this requirement. A statement that the substitute specification contains no new matter is required. However, a marked up version of the specification is not required for this correction.
  - The line spacing on page(s) all of the claims is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper claim listing, having the proper line spacing throughout, is required to satisfy this requirement.
  - The line spacing on page(s) all of the abstract is not 1½ or double spaced (see 37 CFR 1.52(b)). A proper replacement abstract, having the proper line spacing throughout, is required to satisfy this requirement.

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

- The statutory basic filing fee has not been received.
- The application search fee must be submitted.
- The application examination fee must be submitted.
- Surcharge as set forth in 37 CFR 1.16(f) has not been received.

  The surcharge is due for any one of:
  - late submission of the basic filing fee, search fee, or examination fee,

- late submission of inventor's oath or declaration,
- filing an application that does not contain at least one claim on filing, or
- submission of an application filed by reference to a previously filed application.

- The fee set forth in 37 CFR 1.16(u) for submitting documents not in DOCX format has not been received.

  The fee is due because:
  - the specification was not submitted in DOCX format.

  Note: The fee set forth in 37 CFR 1.16(u) is required if the specification, claims, and/or abstract do not conform to the USPTO requirements for submission in DOCX format. In addition, if applicants submit a PDF version of the specification, claims, and/or abstract that is not generated by the USPTO filing system and also includes a DOCX version of the specification, claims, and/or abstract, then the surcharge is required for the version of the specification, claims, and/or abstract that were submitted in PDF format. However, the fee set forth in 37 CFR 1.16(u) will not be required if applicant submitted an Auxiliary PDF in compliance with the USPTO process for submitting an Auxiliary PDF that was automatically assigned the document code AUX.PDF.

SUMMARY OF FEES DUE:

The fee(s) required (including the fees noted above) are as follows. Small entity discount is in effect. If applicant is qualified for micro entity status, an acceptable Certification of Micro Entity Status must be submitted to establish micro entity status. (See 37 CFR 1.29 and forms PTO/SB/15A and 15B.)

- $**68** surcharge.
