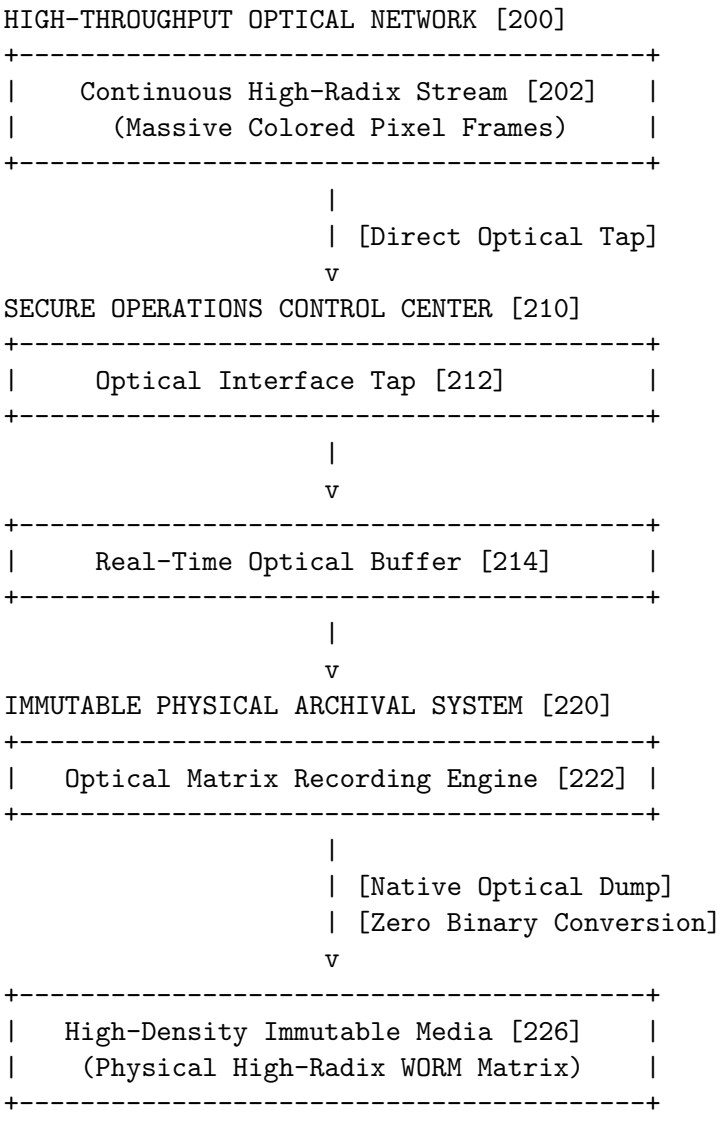
NATIVE OPTICAL ARCHITECTURE (PREFERRED EMBODIMENT)
Optically-Native CPU Core [102]
(U.S. Ser. No. 19/562,825)
Parametric Lexicon Engine [104]
(Forward-Secret Rotating Maps)
[Native Visual Frames]
Pixel-Based Optical Router [112]
(U.S. Ser. No. 19/560,031)
TRANSITIONAL BACKWARDS-COMPATIBILITY RETROFIT
Legacy Binary [132] ---> Retrofit Codec [134]
COMMUNICATION NETWORK [110]
(Optical Bus / Legacy IP Channel)
Synchronized Lexicon Engine [124]
Optically-Native Destination [126]

FIG. 1



HIGH-THROUGHPUT OPTICAL NETWORK [200]
Continuous High-Radix Stream [202]
(Massive Colored Pixel Frames)
[Direct Optical Tap]
SECURE OPERATIONS CONTROL CENTER [210]
Optical Interface Tap [212]
Real-Time Optical Buffer [214]
IMMUTABLE PHYSICAL ARCHIVAL SYSTEM [220]
Optical Matrix Recording Engine [222]
[Native Optical Dump]
[Zero Binary Conversion]
High-Density Immutable Media [226]
(Physical High-Radix WORM Matrix)

FIG. 2
