From:postmaster@mta21.r1.rpost.net:Hello, this is the mail server on mta21.r1.rpost.net. I am sending you this message to inform you on the delivery status of a message you previously sent. Immediately below you will find a list of the affected recipients; also attached is a Delivery Status Notification (DSN) report in standard format, as well as a copy of the original message. delivery failed; will not continue trying

From:"Microsoft Outlook" :Delivery has failed to these recipients or groups: finance@atlantaga.gov Your message wasn't delivered. Despite repeated attempts to deliver your message, the recipient's email system refused to accept a connection from your email system. Contact the recipient by some other means (by phone, for example) and ask them to tell their email admin that it appears that their email system is refusing connections from your email server. Give them the error details shown below. It's likely that the recipient's email admin is the only one who can fix this problem. For Email Admins No connection could be made because the target computer actively refused it. This usually results from trying to connect to a service that is inactive on the remote host - that is, one with no server application running. For more information and tips to fix this issue see th...[truncated]
