Subject: Notice of Potential Infringement of U.S. Patent Applications and Notice of Actual Knowledge

Dear Mr. Ehrhart,

This letter serves as a formal notice of potential infringement of several of my U.S. patent applications. It has come to my attention that activities associated with Tesla, Inc. (“Tesla”), its employees, or its agents may be infringing upon my intellectual property rights.

The nexus of the potential infringement are Tesla Vehicles equipped with components that infringe of inventions in this portfolio, particularly the ones equipped with rear-view mirrors capable of exfiltrating audio via short range/low power communications, or infrared communication, like the Tesla Model S Plaid purchased by the inventor during year 2021: VIN 5YJSA1E68MF450964.

The following U.S. patent applications, among others in my portfolio, are believed to be relevant to these activities:

• USPTO Application No. 19/560,042: Method and System for High-Bandwidth, Free-Space Optical Data Exchange Between Mobile

• USPTO Application No. 19/571,566: METHOD AND SYSTEM FOR DE-ANONYMIZING RADIO FREQUENCY SIGNALS VIA A DISTRIBUTED SENSOR ARRAY
• USPTO Application No. 19/638,466: SYSTEM FOR SECURE COMMUNICATION USING COVERT SIDE-CHANNELS EMBEDDED IN A HIGH-CARDINALITY PARALLEL DATA STREAM
• USPTO Application No. 19/559,608: Method and System for a Geo-Indexing Covert Ledger
• USPTO Application No. 19/559,972: Method and System for Communication via Passive Reflection from Non-Cooperative Orbiting Objects
• USPTO Application No. 19/658,570: METHOD AND SYSTEM FOR GEOGRAPHICAL AND ORIENTATION-BASED ENCRYPTION SEEDS

These applications describe novel methods and systems for secure communication, data protection, and covert data handling.

Furthermore, please be advised that attached to this email is the complete portfolio of my inventions, which has also been published in a printed book under the title "ISBN 9781971481296 Portfolio of Patent Applications Submitted to the USPTO." This transmission constitutes a formal Notice of Actual Knowledge of the entire contents of the attached book and the patent applications contained therein. This letter serves as a good faith effort to inform Tesla of my intellectual property rights. I expect a prompt and substantive response to this notice within fifteen (15) business days.

This letter serves as a good faith effort to inform Tesla of my intellectual property rights. I am open to discussing licensing terms for the use of my patented technologies. **As a condition of any such license, I would require that any infringing properties (e.g., delivery vehicles, store signage, or operational equipment) be clearly and publicly marked with the corresponding USPTO Patent Application number(s) or my name as the inventor. The marking must be placed in public view and occupy at least 3% of the visible surface of the property/vehicle.**

This letter is not a complete statement of my rights in connection with this matter and is without prejudice to any of my rights and remedies, all of which are hereby expressly reserved.

Sincerely,

s/Reinaldo Aguiar Marcano/
