Subject: Notice of Potential Infringement of U.S. Patent Applications and Notice of Actual Knowledge

To the Legal Department of Microsoft Corporation,

This letter serves as a formal notice of potential infringement of several of my U.S. patent applications. It has come to my attention that activities associated with Microsoft Corporation ("Microsoft"), particularly concerning its extensive software, cloud computing, and hardware operations, may be infringing upon my intellectual property rights.

The following U.S. patent applications, among others in my portfolio, are believed to be relevant to these activities:

- **USPTO Application No. 19/560,038:** Optical Computing Architecture and System
- **USPTO Application No. 19/562,845:** A Physically Disaggregated Computing System
- **USPTO Application No. 19/658,570:** METHOD AND SYSTEM FOR GEOGRAPHICAL AND ORIENTATION-BASED ENCRYPTION SEEDS
- **USPTO Application No. 19/559,849:** METHOD AND SYSTEM FOR IDENTIFYING ENCRYPTED TRAFFIC BY INJECTING STEGANOGRAPHIC ANCHORS

These applications describe novel methods and systems for optical computing architectures, physically disaggregated computing, geographical and orientation-based encryption, and identifying encrypted traffic via steganographic anchors. Given Microsoft's broad involvement in software, cloud services (e.g., Azure), and hardware, there is a strong basis to believe that technologies infringing upon one or more of these pending patents are being employed.

Furthermore, please be advised that attached to this email is the complete portfolio of my inventions, which has also been published in a printed book under the title "ISBN 9781971481296 Portfolio of

Patent Applications Submitted to the USPTO." This transmission constitutes a formal Notice of Actual Knowledge of the entire contents of the attached book and the patent applications contained therein.

This letter serves as a good faith effort to inform Microsoft of my intellectual property rights. I am open to discussing licensing terms for the use of my patented technologies.

I expect a prompt and substantive response to this notice within fifteen (15) business days. Failure to respond may result in further legal action to protect my intellectual property rights.

This letter is not a complete statement of my rights in connection with this matter and is without prejudice to any of my rights and remedies, all of which are hereby expressly reserved.

Sincerely,

s/Reinaldo Aguiar Marcano/
