Subject: Notice of Potential Infringement of U.S. Patent Applications and Notice of Actual Knowledge

Dear Mr. Zapolsky,

This letter serves as a formal notice of potential infringement of several of my U.S. patent applications. It has come to my attention that activities associated with Amazon.com, Inc. ("Amazon"), particularly concerning its delivery trucks and the store located at Brookfield Place in New York City, may be infringing upon my intellectual property rights.

The following U.S. patent applications, among others in my portfolio, are believed to be relevant to these activities:

- **USPTO Application No. 19/559,745:** SYSTEM AND METHOD FOR COVERT COMMUNICATION USING ARRANGEMENTS OF SATELLITE-OBSERVABLE, DISTINCTIVELY COLORED OBJECTS
- **USPTO Application No. 19/559,959:** METHOD AND SYSTEM FOR COVERT MANIPULATION OF A SUPPLY CHAIN
- **USPTO Application No. 19/560,069:** Business Method for Dual-Purpose Logistics Networks
- **USPTO Application No. 19/571,566:** METHOD AND SYSTEM FOR DE-ANONYMIZING RADIO FREQUENCY SIGNALS VIA A DISTRIBUTED SENSOR ARRAY
- **USPTO Application No. 19/638,466:** SYSTEM FOR SECURE COMMUNICATION USING COVERT SIDE-CHANNELS EMBEDDED IN A HIGH-CARDINALITY PARALLEL DATA STREAM
- **USPTO Application No. 19/658,570:** METHOD AND SYSTEM FOR GEOGRAPHICAL AND ORIENTATION-BASED ENCRYPTION SEEDS

These applications describe novel methods and systems for covert communication, supply chain manipulation, dual-purpose logistics networks, de-anonymizing RF signals, secure communication via covert side-channels, and geographical/orientation-based encryption. Given the nature of Amazon's logistics and retail operations, there is a strong basis to believe that technologies infringing upon one or more of these pending patents are being employed.

Furthermore, please be advised that attached to this email is the complete portfolio of my inventions, which has also been published in a printed book under the title "ISBN 9781971481296 Portfolio of Patent Applications Submitted to the USPTO." This transmission constitutes a formal Notice of Actual Knowledge of the entire contents of the attached book and the patent applications contained therein.

This letter serves as a good faith effort to inform Amazon of my intellectual property rights. I am open to discussing licensing terms for the use of my patented technologies. As a condition of any such license, I would require that any infringing properties (e.g., delivery vehicles, store signage, or operational equipment) be clearly and publicly marked with the corresponding USPTO Patent Application number(s) or my name as the inventor. The marking must be placed in public view and occupy at least 3% of the visible surface of the property/vehicle.

I expect a prompt and substantive response to this notice within fifteen (15) business days. Failure to respond may result in further legal action to protect my intellectual property rights.

This letter is not a complete statement of my rights in connection with this matter and is without prejudice to any of my rights and remedies, all of which are hereby expressly reserved.

Sincerely,

s/Reinaldo Aguiar Marcano/
