Dear Mr. Matthews, Ms. Acharya, Ms. Hines, Mr. Sanders, Mr. Traxler, Ms. Hanigan, and Mr. Thau,

My name is Reinaldo Aguiar. I am a former Staff Software Engineer at Google and a former Managing Director at Goldman Sachs. **I would like to Invite you to submit your firm's Proposal for Representation.**

I am seeking specialized legal representation for a comprehensive intellectual property portfolio consisting of 47 patent applications currently filed with the USPTO. The portfolio (attached) centers on foundational systems for High-Radix architectures (highly relevant to current CPU, AI and InfiniBand networking infrastructures), and Parametric Encoding applied to computing, and also relevant to satellite and cellular communications.

These inventions are likely to cause impact/disruption on the Road-maps of companies like Eutelsat OneWeb/SpaceX/Viasat. For a notable example, please see attached file 092__USPTO_19_639,265_A_High-Radix_and_Parametric_Satellite_Communication_System.pdf and specially USPTO Application # 19/639,265, titled: "A High-Radix and Parametric Satellite Communication System".

Importantly, I have already granted a perpetual, no-fee use license to the US DoD (please see 00__Department-of-Defense__The-Heidi-Shyu-License-Grant.pdf).

I am attaching the patent applications filed with the USPT to this email as PDF file "01__ISBN-978-1-97-148129-6__Portfolio-of-Patent-Applications-Submitted-to-the-USPTO_v2.1998.61.pdf".

I require an aggressive IP litigation and strategy team to protect these assets. A sophisticated technical adversary, backed by a coordinated enterprise with state-level resources, is currently taking active steps to misappropriate and implement these architectures.

Because this systemic IP theft involves severe breaches of fiduciary and federal statutes, I have initiated parallel whistleblower disclosures with federal authorities. This includes formal criminal referrals submitted to Hon. Colin McDonald (National Fraud Enforcement Division) and Hon. Cody Matthew Herche (Trade Fraud Task Force) at the DOJ. The documentation of these federal filings is attached for your review.

I would welcome the opportunity to discuss how your firm might lead the protection and monetization of this portfolio.

Respectfully,

Reinaldo J. Aguiar Marcano
Forensic Systems Architect
