RE: URGENT PETITION FOR INVESTIGATION: Systemic Infiltration of IRS Memphis/Austin Branches by Foreign Intelligence Operatives; Retaliation Against Whistleblower Reinaldo J. Aguiar Marcano.

Honorable Chairs and Subcommittee Members:

This is a formal petition for an immediate Congressional investigation into a catastrophic security breach at the Internal Revenue Service (IRS). As detailed in the attached **Declaration D132**, there is forensic evidence that the IRS notice-generation queue has been compromised by the Venezuelan Army Intelligence and a transnational racketeering (RICO) enterprise.

I. The 24-Hour Timeline: A Physical and Logical Impossibility
On April 13, 2026, the IRS Memphis branch generated **Notice CP14** demanding a duplicative assessment of $75,067.62 from me. Within 24 hours—before the physical letter could have been delivered via mail to my residence in Katy, Texas—I was warned by a source physically located in Venezuela and embedded in the **Venezuelan Army Intelligence** that an IRS action was being triggered to freeze my bank accounts and silence my whistleblowing.

I verified this "Impossible Knowledge" by logging into the IRS portal, where I found the notice. It is physically impossible for a foreign military officer in Venezuela to know the contents of an unmailed IRS notice from Tennessee unless the **IRS's technical substrate** has been fully compromised by a hostile foreign power.

II. Retaliation Against a Disruptive Innovator
This administrative strike follows my filing of 50 foundational patent applications (e.g., **19/640,945** and **19/639,219**) that threaten the economic dominance of the "Big Three" aggregators (BlackRock, Vanguard, State Street). The IRS Notice CP14 contains a manual intervention code (**"18H"**) indicating an override by the Error Resolution System (ERS). This override occurred despite my previous payment of $442,531.00 against a $431,263.00 self-assessment, creating a "manufactured" debt designed to trigger an automated account freeze.

III. Request for Congressional Action
Under the mandate of the **Subcommittee on Delivering on Government Efficiency (DOGE)** to expose "abuse in government systems", I plead for a subpoena of the IRS system access logs for TIN: XXX-XX-2502. We must determine how foreign intelligence obtained visibility into internal IRS enforcement workflows before the taxpayer was served.

This is not a tax dispute; it is a counterintelligence crisis and a violation of **IRC § 6103** return confidentiality on a national scale.

For reference, I am also attaching to this email the letter I faxed to the IRS in response to their notice CP14 before I actually received it by mail.

Respectfully,
Reinaldo J. Aguiar Marcano
Managing Director at https://SCOTXwatch.org/
Former Managing Director, Goldman Sachs and Staff Software Engineer, Google.

RPOST®PATENTED
