Good Morning Mr. Carpenter and Mr. Van De Weert,

My name is Reinaldo Aguiar. I am a former Staff Software Engineer at Google and a former Managing Director at Goldman Sachs.

I am seeking specialized legal representation for a comprehensive intellectual property portfolio consisting of 47 patent applications currently filed with the USPTO. The portfolio (attached) centers on foundational systems for High-Radix architectures (highly relevant to current CPU, AI and InfiniBand networking infrastructures), and Parametric Encoding applied to computing, and also relevant to satellite and cellular communications.

These inventions are likely to cause impact/disruption on the Road-maps of companies like Huawei, Intel and NVIDIA.

I am attaching the patent applications filed with the USPT to this email as PDF file "01__ISBN-978-1-97-148129-6__Portfolio-of-Patent-Applications-Submitted-to-the-USPTO_v2.1998.61.pdf".

I require an aggressive IP litigation and strategy team to protect these assets. A sophisticated technical adversary, backed by a coordinated enterprise with state-level resources, is currently taking active steps to misappropriate and implement these architectures.

Because this systemic IP theft involves severe breaches of fiduciary and federal statutes, I have initiated parallel whistleblower disclosures with federal authorities. This includes formal criminal referrals submitted to Hon. Colin McDonald (National Fraud Enforcement Division) and Hon. Cody Matthew Herche (Trade Fraud Task Force) at the DOJ. The documentation of these federal filings is attached for your review.

I am contacting you specifically because your previous tenure at the DOJ, combined with your judicial experience in Ohio, provides the exact jurisdictional and federal expertise required to navigate high-stakes IP litigation that overlaps with ongoing federal criminal scrutiny.

I would welcome the opportunity to discuss how your firm might lead the protection and monetization of this portfolio.

Respectfully,

Reinaldo J. Aguiar Marcano
Forensic Systems Architect
Former Managing Director, Goldman Sachs | Former Staff Engineer, Google
