Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In responsive follow-up to the *Notice to File Missing Parts* mailed August 5, 2026, the pro se Applicant, Reinaldo Javier Aguiar Marcano, respectfully submits this comprehensive Supplemental Formalities Response under 37 CFR § 1.121 and 37 CFR § 1.125.

I. REAFFIRMATION OF SMALL ENTITY STATUS (37 CFR § 1.27)

Applicant hereby formally reaffirms entitlement to **Small Entity status** under 37 CFR § 1.27 and 35 U.S.C. § 123. All statutory fees are computed strictly under the Small Entity fee schedule.

II. FEE RECONCILIATION, DEPOSIT ALLOCATION, AND TIMELINESS

A. Confirmation of Prior Fee Remittance (October 10, 2026)

Applicant confirms that the One-Month Extension fee and Suspension Processing fee were remitted in full on October 10, 2026, and officially confirmed by USPTO Electronic Payment Receipt (Payment Transaction ID: **E202600001176201**, totaling **$154.00**):

- **One-Month Extension of Time** (37 CFR § 1.136(a), Fee Code 2251): **$94.00** (Paid in Full)
- **Suspension Processing Fee** (37 CFR § 1.17(i), Fee Code 2830): **$60.00** (Paid in Full)

Because the initial two-month response period set in the August 5, 2026 Notice expired on October 5, 2026, payment of the One-Month Extension fee extends the statutory reply period to **November 5, 2026**. This supplemental response is submitted within the fully extended window.

B. Allocation of Unapplied Deposit Funds to Pre-Examination Base Fees

In the Notice to File Missing Parts mailed August 5, 2026, the Office identified the required statutory base filing fees under 37 CFR § 1.16 and acknowledged that the Office currently holds **$484.00 in unapplied deposit funds** under this docket ("$(484) previous unapplied payment amount"):

- Basic Filing Fee (37 CFR § 1.16(a), Small Entity Fee Code 4011): $70.00
- Non-DOCX Filing Surcharge (37 CFR § 1.16(u), Small Entity Fee Code 2054): $172.00
- Late Filing Surcharge (37 CFR § 1.16(f), Small Entity Fee Code 2051): $68.00
- Application Search Fee (37 CFR § 1.16(k), Small Entity Fee Code 2111): $308.00
- Application Examination Fee (37 CFR § 1.16(o), Small Entity Fee Code 2311): $352.00
- **Total Gross Small Entity Base Fees: $970.00**
- **Less Previous Unapplied Deposit Funds Held on Docket: $(484.00)**
- **Remaining Net Base Fee Balance: $486.00**

Applicant hereby respectfully requests that the Office of Patent Application Processing and Office of Finance formally apply said **$484.00 in unapplied deposit funds** directly toward the statutory base fees of this application.

C. Request for Administrative Notice of Fee Deficiency (37 CFR § 1.53(f)) & Macro Portfolio Context

For the remaining net base fee balance of **$486.00**, Applicant respectfully requests that the Office issue a formal **Notice of Fee Deficiency** pursuant to 37 CFR § 1.53(f) and MPEP § 506, allowing fee settlement to proceed in accordance with standard Office deficiency procedures, or hold fee collection in abeyance pursuant to the concurrent Conditional Request for Suspension of Action under 37 CFR § 1.103(a).

Applicant respectfully notes the equitable context of the broader portfolio: across Applicant's 102 patent applications, the USPTO Office of Finance currently holds over **$32,758.00** (approximately $35,000 to $42,000 USD verified across 79 notices) in unapplied pro se deposit funds detained by the agency without interest. This macro capital reserve provides substantial equitable security while pre-examination formalities are perfected, and confirms that Applicant is actively managing portfolio-wide capitalization.

D. Explicit Reaffirmation and Maintenance of Petitions (37 CFR § 1.136(a) & § 1.103(a))

Applicant hereby expressly reaffirms, maintains, and renews in full force and effect:

1. **Petition for One-Month Extension of Time (37 CFR § 1.136(a)):** Reaffirming extension through November 5, 2026, funded by Fee Code 2251 ($94.00) paid on October 10, 2026. A verified copy of said Petition is re-tendered concurrently herewith under Document Description "Extension of Time".
2. **Conditional Request for Six-Month Suspension of Action (37 CFR § 1.103(a)):** Reaffirming request for suspension upon pre-examination clearance, funded by Fee Code 2830 ($60.00) paid on October 10, 2026. A verified copy of said Request is re-tendered concurrently herewith under Document Description "Letter Requesting Suspension of Action".

To ensure complete administrative continuity, copies of both pre-compiled petitions are re-tendered within this unified 9-document submission, confirming that this supplemental filing does NOT withdraw, vacate, or supersede any petition or relief previously requested.

III. SUPPLEMENTAL FORMALITIES PERFECTION PACKAGE

To pre-emptively cure every latent technical and formal informality before the application is assigned to Technology Center 2100, Applicant concurrently submits the following perfected instruments in this single, unified 9-document electronic envelope:

A. Formal Certification of No New Matter (37 CFR § 1.125(b) & MPEP § 608.01(q))

Applicant hereby formally certifies pursuant to 37 CFR § 1.125(b) and MPEP § 608.01(q) that the accompanying Substitute Specification contains **NO NEW MATTER**.

The changes incorporated into the Substitute Specification relative to the as-filed specification are strictly limited to the following formatting and excision corrections:

1. **Excision of Embedded Drawings (37 CFR § 1.58(a)):** Excised the embedded graphic images of FIG. 1, FIG. 2, and FIG. 3 from specification pages 6, 7, and 8, relocating the illustrations exclusively to formal standalone drawing sheets under 37 CFR § 1.84.
2. **Excision of Embedded Abstract and Claims (37 CFR §§ 1.72(b), 1.75(h)):** Excised the abstract and claims that were embedded within the continuous text of the original specification, presenting them on standalone sheets.
3. **Strict Double Spacing (37 CFR § 1.52(b)(2)(i)):** Applied strict double line spacing throughout the technical body.
4. **Flush-Left Paragraph Formatting (37 CFR § 1.52(b)(2)):** Formatted all section paragraphs with uniform flush-left alignment and vertical separation, eliminating asymmetric indents.
5. **Removal of Extraneous Metadata and Procedural Blocks (37 CFR § 1.52(b)(3)):** Excised the non-technical bibliographic metadata table from the top of the specification body and excised the procedural Statement of No New Matter and signature block from the bottom of the specification body, ensuring that the Clean Substitute Specification contains purely technical disclosure text.

Pursuant to 37 CFR § 1.125(c), Applicant submits both a **Clean Copy of the Substitute Specification** (filed concurrently herewith under Document Description "Specification") and a **Marked-Up Copy** (filed concurrently herewith under Document Description "Specification") showing all excisions in strike-through.

B. Standalone Formal Drawing Sheets (37 CFR § 1.84)

Applicant submits standalone formal drawing sheets (filed concurrently herewith under Document Description "Drawings - only black and white line drawings" or "Drawings") containing **FIG. 1, FIG. 2, and FIG. 3** across Sheets 1–3 pursuant to 37 CFR § 1.84. In strict compliance with 37 CFR § 1.121(d), each sheet bears the mandatory phrase **"Replacement Sheet"** in the top margin. In strict compliance with 37 CFR § 1.84(u)(1), the drawing views are labeled purely as **"FIG. 1"**, **"FIG. 2"**, and **"FIG. 3"**.

C. Perfected Universal AIA Inventor Declaration (35 U.S.C. § 115, 37 CFR § 1.63)

Applicant submits an executed, perfected AIA Inventor Declaration (filed concurrently herewith under Document Description "Oath or Declaration filed") satisfying all statutory requirements:

1. Includes the mandatory statutory authorization averment under 37 CFR § 1.63(a)(4);
2. Explicitly enumerates the inventor's **Legal Physical Residence Address** (26714 Valleyside Drive, Katy, Texas 77494, USA) and **Mailing Address** (2302 Britton Ridge Drive, Katy, Texas 77494, USA) pursuant to 37 CFR § 1.63(b) and MPEP § 605;
3. Explicitly affirms United States Citizenship;
4. Contains the complete, un-truncated duty of disclosure citation under 37 CFR § 1.56;
5. Contains the standalone criminal liability warning under 18 U.S.C. § 1001; and
6. Bears the inventor's complete legal name S-signature under 37 CFR § 1.4(d)(2).

D. Standalone Replacement Claims and Abstract (37 CFR § 1.121)

Applicant submits standalone Replacement Claims 1–10 (filed concurrently herewith under Document Description "Claims") and a standalone Replacement Abstract (filed concurrently herewith under Document Description "Abstract"), each commencing on a separate sheet in strict double spacing, under pure statutory headings without top metadata tables or closing signatures, fully compliant with 37 CFR § 1.52(b)(3).

IV. CONCLUSION

All formal and technical instruments having been fully perfected herein, statutory timeliness secured through November 5, 2026, and $484.00 in unapplied deposit funds allocated toward base fees, Applicant respectfully requests that the Office of Patent Application Processing accept this response as timely and complete, issue an administrative Notice of Fee Deficiency under 37 CFR § 1.53(f)

for the remaining net balance, and advance Application No. 19/560,038 to Technology Center 2100 under Examiner ADAM DEMARAY with entry of Applicant's Conditional Request for Suspension of Action under 37 CFR § 1.103(a).

Respectfully submitted,
