Operative Superseding Instrument Clause

Pursuant to 37 CFR §§ 1.111, 1.121, and MPEP § 714.03, Applicant submits this comprehensive Supplemental Response to Pre-Examination Notices. This instrument coordinates and perfects all responsive elements following the prior filing of October 9, 2026. In accordance with established practice, this submission constitutes the controlling, operative paper governing formalities compliance and fee accounting across the Image File Wrapper.

I. Small Entity Entitlement (37 CFR § 1.27)

Applicant formally reaffirms Small Entity status pursuant to 37 CFR § 1.27. As an independent inventor prosecuting this application pro se, Applicant qualifies fully for the sixty percent (60%) fee reduction. Applicant has not assigned, granted, or licensed any interest to any entity disqualified from small entity benefits. All statutory assessments are computed under Small Entity schedules.

II. Exhaustive Curing of Formal Requirements

Applicant concurrently submits a perfected suite of eight standalone instruments resolving every administrative and technical requirement:

1. **Petition for Extension of Time (37 CFR § 1.136(a)):** Requesting five months extension through November 9, 2026, offsetting $998.00 previously remitted under Fee Code 2254 on October 9, 2026 pursuant to MPEP § 710.02(e), and remitting the $360.00 delta for Fee Code 2255.

2. **Conditional Request for Suspension of Action (37 CFR § 1.103(a)):** For a period of six months, conditionally operative upon pre-examination clearance, citing *United States District Court for the Southern District of Texas, Case No. 4:26-cv-08794 (Judge Kenneth M. 4. **Clean Substitute Specification (37 CFR § 1.125(c)):** Pure technical disclosure with double line spacing and one-inch margins.

5. **Marked-Up Specification (37 CFR § 1.125(c)):** Showing excised non-specification sections with statutory strikethrough.

6. **Formal Standalone Drawings (37 CFR § 1.84):** Standalone sheets for Figures 1–5 with compliant top-margin replacement sheet indicia.

7. **Replacement Claims (37 CFR § 1.75(h)):** Consecutively numbered claims 1 through 11 on separate sheets.

8. **Replacement Abstract (37 CFR § 1.72(b)):** Narrative abstract commencing on a separate sheet.

Substitute Specification and 37 CFR § 1.125(b) Certification

Applicant concurrently files a Substitute Specification, including a clean copy and a marked-up copy pursuant to 37 CFR § 1.125(c). The sole purposes of this substitution are:

1. To excise embedded drawings to standalone formal sheets (37 CFR § 1.58(a));

2. To segregate the claims and abstract to separate sheets (37 CFR §§ 1.72(b), 1.75(h)); and

3. To delete the paragraph titled "Statement of License Grant to the United States Government" in its entirety to preserve Applicant's Small Entity status under 37 CFR § 1.27.

Applicant hereby certifies that the technical disclosure remains invariant and that these procedural changes introduce no new matter into the application.

III. Fee Accounting and Point-of-Sale Settlement

Applicant elects to satisfy all statutory pre-examination base fees and extension liabilities in full at checkout. The mandatory Small Entity pre-examination fee schedule requires $970.00

(Filing: $70.00 [Code 4011/2001]; Search: $308.00 [Code 2111]; Examination: $352.00 [Code 2311]; Late Surcharge: $68.00 [Code 2051]; Non-DOCX: $172.00 [Code 2054]). Docket XML records confirm that Fee Code 2051 ($68.00) was paid on July 31, 2026. Prior payment of Fee Code 2254 ($998.00) on October 9, 2026 *and* payment of Fee code 2252 ($276.00) on July 31, 2026 are credited against Fee Code 2255 ($1,358.00), leaving a net extension delta of $84.00. Fee Code 2830 ($60.00) was satisfied on October 9, 2026. All remaining cash liabilities are remitted at checkout via the USPTO Patent Center Portal, securing total fee clearance. Applicant authorizes the Office to use any unapplied payment credits to cover any fees that may have not been identified in this calculation.
