Sir:

In responsive follow-up to the *Notice of Incomplete Reply* mailed August 7, 2026, the pro se Applicant, Reinaldo Javier Aguiar Marcano, respectfully submits this comprehensive Supplemental Formalities Perfection Response under 37 CFR § 1.121 and 37 CFR § 1.125.

I. REAFFIRMATION OF SMALL ENTITY STATUS (37 CFR § 1.27)

Applicant hereby formally reaffirms entitlement to **Small Entity status** under 37 CFR § 1.27 and 35 U.S.C. § 123. Applicant's verified Statement of Small Entity Status was filed on July 31, 2026, and entered on the docket. All statutory fees are computed strictly under the Small Entity fee schedule.

II. CONFIRMATION OF COMPLETED FEE REMITTANCE (OCTOBER 10, 2026)

Applicant confirms that 100% of all statutory pre-examination fees and extension fees demanded by the Office were remitted in full on October 10, 2026, and officially confirmed by the USPTO Electronic Payment Receipt (Payment Transaction ID: **E202600M42277601**, Card Ending in 9275, totaling **$2,388.00**):

- **Basic Filing Fee** (37 CFR § 1.16(a), Fee Code 4011): $70.00 (Paid in Full)
- **Non-DOCX Filing Surcharge** (37 CFR § 1.16(u), Fee Code 2054): $172.00 (Paid in Full)
- **Search Fee** (37 CFR § 1.16(k), Fee Code 2111): $308.00 (Paid in Full)
- **Examination Fee** (37 CFR § 1.16(o), Fee Code 2311): $352.00 (Paid in Full)
- **Late Filing Surcharge** (37 CFR § 1.16(f), Fee Code 2051): $68.00 (Paid in Full)
- **Five-Month Extension of Time** (37 CFR § 1.136(a), Fee Code 2255): $1,358.00 (Paid in Full)
- **Suspension Processing Fee** (37 CFR § 1.17(i), Fee Code 2830): $60.00 (Paid in Full)

Because the full Five-Month Extension fee was remitted, the statutory reply period extends to Sunday, November 8, 2026, rolling automatically to **Monday, November 9, 2026** pursuant to 35 U.S.C. § 21 and 37 CFR § 1.7(a). This supplemental filing is submitted within the fully paid extension window and requires **$0.00** in additional fees.

B. Explicit Reaffirmation and Maintenance of Petitions (37 CFR § 1.136(a) & § 1.103(a))

Applicant hereby expressly reaffirms, maintains, and renews in full force and effect:

1. **Petition for Five-Month Extension of Time (37 CFR § 1.136(a)):** Reaffirming extension of the response period through Monday, November 9, 2026. The full statutory Small

Entity fee of $1,358.00 (Fee Code 2255) was remitted in full and confirmed under Payment Receipt Transaction ID E202600M42277601 on October 10, 2026. A verified copy of said Petition is re-tendered concurrently herewith under Document Description "Extension of Time".

2. **Conditional Request for Six-Month Suspension of Action (37 CFR § 1.103(a)):** Reaffirming request for suspension upon pre-examination clearance, due to active federal civil rights litigation in the U.S. District Court for the Southern District of Texas, Case No. 4:26-cv-08794. The statutory processing fee of $60.00 (Fee Code 2830) was remitted in full and confirmed on October 10, 2026. A verified copy of said Request is re-tendered concurrently herewith under Document Description "Letter Requesting Suspension of Action".

To ensure complete administrative continuity and eliminate any risk of clerical misplacement across multiple electronic envelopes, Applicant re-tenders both petitions concurrently herewith within this unified 9-document submission, confirming that this supplemental filing does NOT withdraw, vacate, or supersede any petition or relief previously requested.

III. SUPPLEMENTAL FORMALITIES PERFECTION PACKAGE

To pre-emptively cure every latent technical and formal informality before the application is assigned to Technology Center 2100, Applicant concurrently submits the following perfected instruments in this single, unified 9-document electronic envelope:

A. Formal Certification of No New Matter (37 CFR § 1.125(b) & MPEP § 608.01(q))

Applicant hereby formally certifies pursuant to 37 CFR § 1.125(b) and MPEP § 608.01(q) that the accompanying Substitute Specification contains **NO NEW MATTER**.

The changes incorporated into the Substitute Specification relative to the as-filed specification are strictly limited to the following formatting, excision, and typographical corrections:

1. **Excision of Embedded Drawings (37 CFR § 1.58(a)):** Excised the embedded graphic image of FIG. 1 from specification page 4/5, relocating the illustration exclusively to a formal standalone drawing sheet under 37 CFR § 1.84.
2. **Excision of Embedded Abstract and Claims (37 CFR §§ 1.72(b), 1.75(h)):** Excised the abstract and claims that were embedded within the continuous text of the original specification, presenting them on standalone sheets.
3. **Strict Double Spacing (37 CFR § 1.52(b)(2)(i)):** Applied strict double line spacing throughout the technical body.

4. **Flush-Left Paragraph Formatting (37 CFR § 1.52(b)(2)):** Formatted all section paragraphs with uniform flush-left alignment and vertical separation, eliminating asymmetric indents.
5. **Correction of Font-Encoding Typographical Error (MPEP § 608.01(q)):** In the Detailed Description of the Invention, corrected an obvious typographical font-encoding defect where an ASCII greater-than-or-equal symbol in the as-filed source unintentionally rendered as an inverted question mark glyph ("¿=") in the Image File Wrapper PDF. This was corrected to standard mathematical notation "$\geq$ 256 bits" (greater than or equal to 256 bits), matching verbatim the surrounding disclosure and Claim 2 ("wherein the bit-width is 256 bits or greater"). Pursuant to MPEP § 608.01(q), this cures an obvious typographical defect and introduces no new matter.

Pursuant to 37 CFR § 1.125(c), Applicant submits both a **Clean Copy of the Substitute Specification** (filed concurrently herewith under Document Description "Specification") and a **Marked-Up Copy** (filed concurrently herewith under Document Description "Specification") showing all excisions in strike-through and typographical corrections in underline.

B. Standalone Formal Drawing Sheets (37 CFR § 1.84)

Applicant submits a standalone formal drawing sheet (filed concurrently herewith under Document Description "Drawings") containing **FIG. 1** pursuant to 37 CFR § 1.84. In strict compliance with 37 CFR § 1.84(o) (descriptive legends containing as few words as possible) and 37 CFR § 1.84(u)(1), the drawing view is labeled purely as **"FIG. 1"**, excising the narrative description from the drawing sheet. The descriptive text is properly retained in the "Brief Description of the Drawings" section of the written specification. The drawing sheet bears the standardized top margin replacement indicia.

C. Perfected Universal AIA Inventor Declaration (35 U.S.C. § 115, 37 CFR § 1.63)

Applicant submits an executed, perfected AIA Inventor Declaration (filed concurrently herewith under Document Description "Oath or Declaration filed") curing all latent defects under 37 CFR § 1.63:

1. Includes the mandatory statutory averment under 37 CFR § 1.63(a)(4) that the application was made or authorized to be made by the inventor;
2. Explicitly enumerates the inventor's **Legal Physical Residence Address** (26714 Valleyside Drive, Katy, Texas 77494, USA) and **Mailing Address** (2302 Britton Ridge Drive, Katy, Texas 77494, USA) pursuant to 37 CFR § 1.63(b) and MPEP § 605;

3. Explicitly affirms United States Citizenship;
4. Contains the complete, un-truncated citation to the duty of disclosure under 37 CFR § 1.56; and
5. Bears the inventor's complete legal name S-signature under 37 CFR § 1.4(d)(2).

D. Standalone Replacement Claims and Abstract (37 CFR § 1.121)

Applicant submits standalone Replacement Claims 1–5 (filed concurrently herewith under Document Description "Claims") and a standalone Replacement Abstract (filed concurrently herewith under Document Description "Abstract"), each commencing on a separate sheet in strict double spacing, under pure statutory headings without closing signatures or contact blocks, fully compliant with 37 CFR § 1.52(b)(3).

IV. FORMAL REQUEST FOR REFUND OF OVERPAYMENTS (37 CFR § 1.26)

As confirmed in the Decision on Petition (PETDEC) mailed October 8, 2026, and the Image File Wrapper records, the Office of Finance currently holds accumulated deposit funds and fee overpayments under this application:

1. **$416.00 Unapplied Deposit Funds:** Remitted during initial filing;
2. **$102.00 Surcharge Overpayment:** Explicitly confirmed in the October 8, 2026 Decision on Petition (Applicant remitted $170 total for surcharge, exceeding the $68 fee by $102); and
3. **$276.00 Prior Extension Overpayment:** Remitted on July 31, 2026 for a two-month extension, rendered overlapping by the full $1,358 five-month extension remitted on October 10.

Pursuant to 37 CFR § 1.26 and MPEP § 509, Applicant respectfully requests that the Office of Finance disburse a refund of said accumulated overpayments totaling **$794.00** ($416.00 + $102.00 + $276.00) via U.S. Treasury disbursement payable to Applicant at the correspondence address of record.

V. CONCLUSION

All statutory fees having been fully remitted on October 10, 2026, and all formal and technical instruments perfected herein, Applicant respectfully requests that the Office of Patent Application

Processing advance Application No. 19/562,825 to Technology Center 2100 for substantive examination, and enter Applicant's Conditional Request for a Six-Month Suspension of Action under 37 CFR § 1.103(a).

Respectfully submitted,
