SUPREME COURT OF TEXAS
BLAKE A. HAWTHORNE, CLERK

**NO. 26-0511 (Supreme Court of Texas)**

**NO. 01-26-00544-CV (First Court of Appeals)**

IN RE REINALDO J. AGUIAR MARCANO,

Relator

# RELATOR'S EMERGENCY MOTION FOR IMMEDIATE TEMPORARY STAY UNDER TRAP 52.10 OBJECTING TO EX PARTE "M-COMPEL" PROPERTY EXTRACTION; NOTICE OF CONCURRENT CLERICAL BLOCKADE AND SYSTEMIC SPOLIATION OF THE APPELLATE RECORD; AND PLEA TO THE JURISDICTION REGARDING CIVIL EXTORTION OF PROPERTY ENCUMBERED BY SOVEREIGN U.S. MILITARY LICENSES AND INTERFERENCE WITH ACTIVE DFARS 227.7004 CLAIMS

## I. RELIEF SOUGHT & STATEMENT OF EXTRAORDINARY URGENCY

**EMERGENCY RELIEF IS REQUESTED BEFORE WEDNESDAY, MAY 27, 2026, AT 9:00**

**AM.** Pursuant to **Texas Rule of Appellate Procedure 52.10**, Relator Reinaldo J. Aguiar Marcano respectfully moves this Honorable High Court and the Intermediate Court of Appeals for an immediate, emergency temporary order staying all trial court proceedings in underlying Cause No. **25-DCV-328122** pending before the 387th District Court of Fort Bend County, Texas.

Specifically, Relator seeks an immediate order staying and canceling an unauthorized court event unilaterally placed on the trial docket for **May 27, 2026, at 9:00 AM**, captioned ambiguously as **"M-Compel"**. This event is designed to execute an ex parte, state-sanctioned extraction of corporate computer hardware assets containing proprietary trade secrets and foundational intellectual property architecture belonging to an inventor with over **50 active patent applications submitted to the USPTO in the year 2026 alone** (documented via catalog **ISBN 9781971481296**, *see* **Appendix Exhibit E**).

This ex parte extraction is scheduled to occur while Relator is trapped under a condition of *de facto* house arrest engineered by the trial court's signing of a void, extrajudicial Capias order on May 15, 2026, leaving Relator physically unable to attend any courtroom without facing immediate, unlawful confinement. Because the trial court and the district clerk are actively operating in absolute defiance of a mandatory automatic stay under **Texas Rule of Civil Procedure 18a(g)(1)**, and are systematically suppressing Relator's written statutory objections from entering the viewable public record, immediate intervention by the higher courts is the sole remaining mechanism to protect Relator's physical liberty and commercial property from irreversible,

state-sanctioned devastation.

## II. SHOWING OF REQUISITE JURISDICTION & LIMITED CAPACITY

Relator appears strictly in a **limited capacity** to preserve the subject matter of his pending constitutional Petitions for Writ of Habeas Corpus and Mandamus. Both higher courts possess clear jurisdictional authority under **Tex. Gov't Code §§ 22.001 and 22.221** to issue any writ, stay, or temporary injunction necessary to enforce their respective intermediate and supreme jurisdictions and protect a litigant from an ongoing, extrajudicial exercise of void state power.

## III. STATEMENT OF THE FRAUDULENT SCHEME: THE FAMILY LAW PRETEXT

This matter has completely transcended the operational boundaries of a domestic relations dispute. The family court machinery has been systematically weaponized by officers of the court to execute an commercial asset misappropriation and intellectual property grab under intense duress. The precise, uncontradicted chronological sequence reveals a targeted effort to anchor intangible intellectual property to a physical corporate asset:

1. **The Injunction Footprint:** At the inception of this dispute, the Adams Law Firm

embedded anomalous, non-standard injunction language within their filings explicitly targeting and restricting the custody and possession of **"Computers, Computer Media, and other computer-related items."**

2. **The Identity of the Corporate Target:** Relator recently attempted to perform standard technical service on a legacy laptop computer that is the lawful property of his corporate entity. This device was historically assigned as a work tool to his former partner for the strictly limited, non-technical scope of Human Resources and sales staff recruitment—supported by a documented **$17,500 corporate contractor fee payment**.

3. **The Extortionate Text Message Hook:** Upon Relator seeking an administrative hardware password unlock code from the former partner, she transmitted a text message explicitly asserting: *"I can't give you the code, and that computer is mine, you gave it to me as a gift."* (*See* certified translation, **Appendix Exhibit D**).

4. **The Coercive Intersection:** Coincidentally, following this property demand, G. Troy Pickett and the Adams Law Firm aggressively bypass the trial court's frozen jurisdiction to secure a signed Capias (arrest warrant) from Judge Oscar Telfair III on May 15, 2026. Within days of confining Relator to his home under threat of immediate arrest, the court dockets a mysterious, un-noticed entry for **May 27, 2026, at 9:00 AM** labeled **"M-Compel."**

5. **Federal Military License Encumbrance and Procurement Interference:** The proprietary technology portfolio targeted by opposing counsel's unauthorized

discovery maneuvers encompasses foundational inventions published in *The Architecture of Control* (ISBN 9781971481296). Crucially, Relator has proactively granted an irrevocable, perpetual, no-fee license to the United States Federal Government for national defense and sovereign intelligence purposes. On April 17, 2026, Relator initiated a formal Administrative Claim for Patent Infringement under DFARS 227.7004 against major defense contractors (including Lockheed Martin Corporation) to halt the illicit disbursement of taxpayer funds for architectures the government already owns the right to use for free. Consequently, by seeking to use a state family court to assert a fraudulent "gift" claim over corporate-owned computer hardware , opposing counsel is not merely harassing a pro se litigant—they are actively attempting to execute a commercial conversion of physical hardware directly linked to an active federal defense procurement audit.

The overarching legal strategy deployed by opposing counsel is clear: they are utilizing the physical custody of Relator's child and the threat of an unconstitutional jail cell (the signed Capias) as financial and legal ransom. They intend to construct a fraudulent "gift" narrative to seize corporate computer hardware, exploit the fact that the former partner's personal AppleID was applied to the work machine as "proof" of hardware ownership, and subsequently make an extrajudicial leap to claim title over the underlying foundational inventions, trade secrets, and software architecture comprising Relator's extensive 2026 USPTO patent portfolio.

## IV. CRIMINAL ANTICORRUPTION ANALOGY (THE JACK SMITH ANALYSIS)

If the actions of this judicial and quasi-judicial network were scrutinized by a federal public corruption task force, the tactical coupling of an invalid arrest warrant with an ex parte property discovery hearing would be prosecuted as an integrated, multi-layered federal felony:

- **The Hobbs Act Extortion (18 U.S.C. § 1951):** Extortion under the Hobbs Act is established when a person obtains property from another, with their consent, induced by the wrongful use of force, fear, or *under color of official right*. Utilizing the official enforcement authority of a state court bench to sign an arrest warrant (Index #222) while under a mandatory jurisdictional stay, and immediately following that restriction of liberty with an ex parte hearing to compel the surrender of proprietary computer assets, constitutes an operational model of extortion under color of official right.
- **The Defend Trade Secrets & Economic Espionage Acts (18 U.S.C. § 1832):** Forcing an inventor—under threat of immediate incarceration—to surrender corporate hardware containing protected trade secrets to an adversarial legal team for the commercial benefit of third parties constitutes an active conspiracy to convert trade secrets produced for interstate commerce.

- **Witness Retaliation (18 U.S.C. § 1513):** Because Relator formally reported the presiding judge and the district clerk to the Internal Revenue Service (IRS) for suspected financial non-compliance in August 2025—**9 months prior to the signing of the Capias**—the sudden deployment of these extreme enforcement and property extraction mechanisms represents a direct, penal enhancement designed to execute structural witness retaliation against a confirmed federal whistleblower.

- The threat of irreparable harm here extends directly to the **sovereign interests of the United States**. When private attorneys deploy an unserved, hidden Capias warrant and an unauthorized ex parte hearing to extract corporate computing equipment , they are intercepting evidence material to an active federal inquiry under **DFARS 227.7004**. The technologies contained on these corporate assets are legally encumbered by irrevocable federal defense grants. Allowing private actors to utilize a frozen family law case to execute a commercial conversion of these devices directly interferes with federal procurement transparency and witness communication with the Department of Defense —an act that directly violates federal public policy and outstrips this trial court's subject-matter jurisdiction.

Relator emphasizes that the Petitioner herself lacks the legal complexity or commercial motive to construct an intellectual property misappropriation scheme of this magnitude. Rather, she has been systematically weaponized as an instrument of

coercion by her retained attorneys to shield their own expanding procedural and structural liabilities.

## V. RECOGNITION OF THE SYSTEMIC CLERICAL RECORD-ATTACK

To execute this property extraction without interference from the higher courts, the trial court network has engaged in active digital spoliation and clerical record tampering:

1. **The Hidden 1CA Record:** In Case No. **01-26-00544-CV**, Relator's critical *Emergency Supplement to Petition for Writs of Mandamus and Injunction* is completely obscured on the public web portal. It has been filed under a generic, non-descript category labeled simply "Motion for emergency relief filed", and the actual PDF document has been **rendered hidden and un-downloadable to the public**, effectively removing it from open scrutiny.

2. **The Trial Docket Alteration:** A chronological audit of the trial court's public Register of Actions reveals active document manipulation. On **May 15, 2026**, the docket sheet explicitly recorded **Index #213** as a "Proposed Order" and **Index #214** as a "Capias" (*see* **Appendix Exhibit A**). However, by **May 24, 2026**, the trial court clerk completely re-indexed and rewrote the metadata of **Index #213**, overwriting the text to read as a final **"Order for Capias and Setting of Bond"** signed by Judge Telfair (*see* **Appendix Exhibit B**).

3. **The Pending Queue Stalling:** Relator electronically submitted a series of

mandatory statutory objections and his *Fifth Motion for De Novo Hearing* on Friday, May 22, 2026. The District Clerk has intentionally stalled these documents inside the electronic "Pending" queue, refusing to stamp them "Filed." They are deliberately delaying the filings to ensure that when the record is compiled and transmitted to the Supreme Court of Texas pursuant to the **May 26, 2026 "Forward Matters"** directive, these critical property-extortion and jurisdictional arguments are entirely absent from the certified transcript.

4. **Bypassing via Verified Envelope Tracking:** To defeat this clerical filtration, Relator has attached the precise typographic text of his stalled motions along with the unalterable digital audit data from **eFiling Envelopes 115286082, 115287913, 115287931, 115289907, 115289920, and 115290003** (*see* **Appendix Exhibit C**), proving complete submission before the higher court's deadlines.

## VI. PRAYER

PREMISES CONSIDERED, Relator Reinaldo J. Aguiar Marcano respectfully prays that this Honorable High Court and the Intermediate Court of Appeals fulfill their constitutional duties to protect their own pending jurisdictions and the life, liberty, and property of a federal whistleblower by entering an immediate, emergency order:

1. **STAYING and canceling** the trial court event or hearing labeled "M-Compel" scheduled for Wednesday, May 27, 2026, at 9:00 AM in Cause No.

25-DCV-328122;

2. **STAYING any and all operational enforcement** of the void "Order for Capias and Setting of Bond" signed on May 15, 2026, thereby lifting the condition of *de facto* house arrest and preventing law enforcement from executing an arrest under a structurally void instrument;

3. **ENJOINING** Judge Oscar Telfair III, the Court Coordinator, and the Fort Bend County District Clerk from scheduling any further hearings, adjusting dockets, or entering any orders in this cause number until the Supreme Court of Texas issues its final ruling on the active, pending third motion to recuse in Cause No. 26-0511; and

4. **ENJOINING** G. Troy Pickett and the Adams Law Firm, P.C., from filing discovery motions or utilizing the family court apparatus to demand inventories or target corporate technology and intellectual property assets during the pendency of this mandatory jurisdictional stay.

Respectfully submitted,

Reinaldo J. Aguiar Marcano

## RELATOR'S MANDATORY UNSWORN JURISDICTIONAL DECLARATION

"My name is Reinaldo J. Aguiar Marcano. My date of birth is February 17, 1979, and my address is 26714 Valleyside Drive, Katy, Texas 77494, United States of America. I am the Relator in this proceeding. I declare under penalty of perjury under the laws of the State of Texas and the United States of America that the facts contained within the foregoing Emergency Motion for Stay are true and correct, and that the accompanying Appendix Exhibits A through G are true, exact, and literal copies of the electronic court files, text transmissions, and corporate assets referenced herein."

Executed in Fort Bend County, Texas, on this 26th day of May, 2026.

Reinaldo J. Aguiar Marcano

**Declarant / Relator Pro Se**

## VII. LIST OF EXHIBITS

- **EXHIBIT A:** Snapshot of the official Fort Bend County Register of Actions for Cause No. 25-DCV-328122 captured on **May 15, 2026, at 11:00 AM**, explicitly showing **Index #213** listed as a "Proposed Order" and **Index #214** listed as a "Proposed Order: Capias."

- **EXHIBIT B:** Snapshot of the official Fort Bend County Register of Actions for Cause No. 25-DCV-328122 captured on **May 24, 2026, at 8:46 PM**, documenting the structural alteration of the record, wherein the text of **Index #213** was retroactively overwritten to read as a final **"Order for Capias and Setting of Bond"** and the unauthorized addition of the **May 27, 2026 "M-Compel"** event at Index #222.

- **EXHIBIT C:** True copy of the automated electronic eFiling Submission Confirmation receipt from Tyler Technologies for **Envelope ID 115286082** (and related envelopes 115287913, 115287931, 115289907, 115289920, and 115290003), establishing a permanent digital audit trail of Relator's timely, pre-emptive written objections submitted on Friday, May 23, 2026, which the clerk has systematically withheld from the public docket.

- **EXHIBIT D:** Respondent’s Unsworn Emergency Declaration of Translation and Transcription Certification pursuant to **Tex. Civ. Prac. & Rem. Code § 132.001**, embedding the exact literal Spanish transcription and English translation of the

May 2026 communication with Petitioner Gloria Espina, capturing her explicit claim of personal "gift" ownership over corporate-owned computer hardware.

- **EXHIBIT E:** True and correct typographic copy of the formal cover page, official Library of Congress control metadata, ISBN registration data, and the comprehensive Table of Contents of Relator's published technical compendium: ***Be Water, Be Light: Portfolio of Patent Applications Submitted to the US Patent and Trademark Office During Year 2026*** **(ISBN 9781971481296)**, documenting the specific identity of the trade secrets and inventions targeted for extraction by opposing counsel under the guise of family court discovery.

- **EXHIBIT F:** True and correct copy of Relator's formal **Administrative Claim for Patent Infringement under DFARS 227.7004** served upon the F-35 Joint Program Office (JPO) Contracting Directorate and Lockheed Martin Corporation on April 17, 2026.

- **EXHIBIT G:** Cryptographically verified **RPost Registered Receipt™** (Tracking Number: 77D821347FDBA15F9F2D60EB2BB3F7803F631719) , providing unalterable digital proof of delivery and the official opening of the federal defense claim by procurement authorities on April 17, 2026.

## CERTIFICATE OF SERVICE

Pursuant to **Texas Rule of Appellate Procedure 9.5**, I certify that a true and correct copy of the foregoing *Relator's Emergency Motion for Immediate Temporary Stay Under TRAP 52.10* was served on May 26, 2026, upon all parties and counsel of record via the electronic eFiling system generation or via direct electronic mail transmission as specified below:

**Counsel for Petitioner / Real Party in Interest (Gloria Espina):**

- **G. Troy Pickett** OWLawyers, P.C. Email: troy@owlawyers.com / houservice@owlawyers.com *Served via eFiling / Electronic Mail*

## CERTIFICATE OF COMPLIANCE

Pursuant to **Texas Rule of Appellate Procedure 9.4(i)(3)**, I certify that this computer-generated document complies with the typeface, style, and word-count limitations set forth by the Texas Rules of Appellate Procedure:

1. **Typeface and Font Specification:** This document has been prepared in a proportional, clean, and highly legible typeface utilizing 14-point computer font size for the principal text body and 12-point computer font size for footnotes and minor annotations.
2. **Word-Count Verification:** Excluding the parts of the document exempted from length-count tracking by **Texas Rule of Appellate Procedure 9.4(i)(1)** (including the case caption, identity of parties/counsel, table of contents, index of authorities, signature blocks, proof of service, and certificates), the total text body count generated by the word-processing software engine reveals that this primary motion contains **2837 words**, which is well within the maximum limit of 4,500 words mandated for emergency motions under TRAP 9.4.

Executed on this 26th day of May, 2026.

**EXHIBIT D:** Respondent's Unsworn Emergency Declaration of Translation and Transcription Certification pursuant to **Tex. Civ. Prac. & Rem. Code § 132.001**, embedding the exact literal Spanish transcription and English translation of the May 2026 communication with Petitioner Gloria Espina, capturing her explicit claim of personal "gift" ownership over corporate-owned computer hardware.

## NO. 25-DCV-328122

**IN THE MATTER OF THE MARRIAGE OF**
**GLORIA ESPINA AND REINALDO J. AGUIAR MARCANO**
**IN THE DISTRICT COURT OF FORT BEND COUNTY, TEXAS**
**387TH JUDICIAL DISTRICT**
**AND IN THE INTEREST OF A CHILD**

# RESPONDENT'S UNSWORN EMERGENCY DECLARATION OF TRANSLATION AND TRANSCRIPTION CERTIFICATION PURSUANT TO TEX. CIV. PRAC. & REM. CODE § 132.001

My name is Reinaldo J. Aguiar Marcano. My date of birth is February 17th, 1979, and my address is 26714 Valleyside Drive, Katy, Texas 77494, United States of America. I am the Respondent in the above-styled cause. I am over eighteen years of age, of sound mind, have personal knowledge of the facts stated herein, and am fully competent to make this unsworn declaration.

1. I am native-fluent and fully proficient in both the English and Spanish languages, possessing the requisite linguistic capability to accurately, completely, and faithfully transcribe and translate legal, evidentiary, and electronic documents between said languages.
2. I am the creator and custodian of the attached transcript and translation of the electronic text message exchanges between myself and the Petitioner, Gloria Espina, which took place in May 2026, attached to the main motion as **Appendix Exhibit C**.
3. I hereby certify under penalty of perjury under the laws of the State of Texas and the United States of America that the Spanish-language text contained within the transcription is a true, literal, and exact typographic replication of the original electronic communications, and that the English-language text is a true, faithful, and accurate translation of said transcription to the best of my skills and linguistic ability.
4. **Statement of Emergency Constraints, Exigent Circumstances, and Unavailability of a Notary Public:** I am executing this translation, transcription, and certification personally as an **Unsworn Declaration under Texas Civil Practice and Remedies Code § 132.001** out of absolute procedural necessity and a complete lack of alternative legal or notary access, arising from the following immediate constraints intentionally imposed upon me:
    - **Timing Constraints:** This Court unilaterally scheduled an ex parte event on the docket for Wednesday, May 27, 2026, but did not update, expose, or make the entry visible until Friday afternoon, May 22, 2026, leaving me with less than two clear business days to prepare, translate, file, and serve my mandatory statutory objections.

- **Physical Confinement / De Facto House Arrest:** This Court signed a void Order for Capias on May 15, 2026 (Index #222), during an active jurisdictional stay pending before the Supreme Court of Texas (Cause No. 26-0511). This unlawful warrant has placed me under a state of *de facto* house arrest, legally and physically preventing me from traveling to a commercial notary public, bank, or certified translation agency without facing the immediate threat of arrest, confinement, and vehicle/proprietary technology impoundment.

5. Due to these bad-faith administrative and physical constraints, I have no recourse but to submit this self-certified translation utilizing an unsworn declaration to ensure my timely, statutory written objections are preserved before the May 27, 2026 deadline.
6. I formally pledge to this Court and the Appellate Clerks that I will procure a secondary, independent certification from an accredited, third-party court translator and a traditionally notarized affidavit immediately upon the lifting of the mandatory, automatic stay currently pending before the Supreme Court of Texas in Cause No. 26-0511, and upon the quashing or staying of the void Capias that currently restrains my physical liberty.

## MANDATORY STATUTORY VERIFICATION

"I, REINALDO J. AGUIAR MARCANO, declare under penalty of perjury that the foregoing is true and correct."

Executed in Fort Bend County, State of Texas, on this 25 day of May, 2026.

Reinaldo J. Aguiar Marcano

**Declarant / Respondent Pro Se**
26714 Valleyside Drive
Katy, Texas 77494
(646) 229-5724
rj.aguiar.m@gmail.com

# English Translation

**[11:32 AM] Gloria Andrea Espina:** Ok. No visit today either? I was thinking of going after graduation

**[11:44 AM] Reinaldo J. Aguiar Marcano:** With the looming threat of arrest: no. I am not going to expose the child to the trauma of seeing his dad being arrested. I find it unbelievable that you don't see how traumatic that could be for a child his age

**[10:15 AM] Reinaldo J. Aguiar Marcano:** Hello Good morning, sorry to bother you. I am trying to log into the computer that I gave you when I hired you to hire salespeople, it's a MacBook but it's asking me for a security code from your Apple account

**[10:16 AM] Reinaldo J. Aguiar Marcano:** I sent it to your cell phone at this number, can you pass it to me, please?

**[10:40 AM] Gloria Andrea Espina:** Hello. I haven't received anything and of course I cannot give you the security code to my Apple account. Besides, that computer is mine

**[10:43 AM] Reinaldo J. Aguiar Marcano:** It is the company's computer

**[10:43 AM] Reinaldo J. Aguiar Marcano:** And it is not the code to your account, it is a code to unlock the computer

**[10:43 AM] Gloria Andrea Espina:** No. You gifted it to me

**[10:44 AM] Reinaldo J. Aguiar Marcano:** Now you're going to start fabricating things to sue me, now over the computer

**[10:44 AM] Reinaldo J. Aguiar Marcano:** Don't worry, don't give me the password

# Spanish Transcription

**[11:32 AM] Gloria Andrea Espina:** Ok. No visita hoy tampoco? yo pensaba ir despues de la graduacion

**[11:44 AM] Reinaldo J. Aguiar Marcano:** Con la amenaza latente de arresto: no. No voy a

exponer Al nino Al trauma de ver a su papa siendo arrested. Me parece increible que no veas lo traumatico que eso podria ser para un nino de su edad

**[10:15 AM] Reinaldo J. Aguiar Marcano:** Hola Buenos dias, disculpa te moleste. Estoy tratando de entrar a la computadora que te di cuando te contrate para contratat vendedores, es una MacBook pero me pide un codigo se seguridad de tu cuenta apple

**[10:16 AM] Reinaldo J. Aguiar Marcano:** Te lo envie a tu celular a Este numero, me lo puedes pasar , por fa ?

**[10:40 AM] Gloria Andrea Espina:** Hola. No me ha llegado nada y por supuesto no te puedo dar el codigo de seguridad de mi cuenta apple. Además esa computadora es mía

**[10:43 AM] Reinaldo J. Aguiar Marcano:** Es la computadora de la empresa

**[10:43 AM] Reinaldo J. Aguiar Marcano:** Y no es El codigo de tu cuenta , es un codigo para desbloquear la computadora

**[10:43 AM] Gloria Andrea Espina:** No. Tu me la regalaste a mi

**[10:44 AM] Reinaldo J. Aguiar Marcano:** Ya vas a empezar a escribir cosas crafted para demandarme, ahora por la computadora

**[10:44 AM] Reinaldo J. Aguiar Marcano:** Tranquila no me des la clave

**RE:** ACTUAL KNOWLEDGE OF PATENT INFRINGEMENT (35 U.S.C. § 154(d)), INITIATION OF DFARS 227.7004 ADMINISTRATIVE CLAIM, AND NOTIFICATION OF POTENTIAL PROCUREMENT FRAUD BY LOCKHEED MARTIN CORPORATION

**DATE:** April 17, 2026

**DELIVERY METHOD:** Cryptographically Verified via Registered Email (RPost)

**DEAR:**

Lt. Gen. Schmidt and the F-35 JPO Contracting Directorate,

**ISBN 9781971481296**

This comprehensive technical and legal brief is served upon you in your official capacities within the United States Department of Defense (DoD).

This document constitutes a formal Administrative Claim for Patent Infringement under the Defense Federal Acquisition Regulation Supplement (DFARS) 227.7004. The purpose of this claim is to notify the United States Government of a highly anomalous and legally precarious situation involving the unauthorized commercialization of a foundational patent portfolio by Lockheed Martin Corporation.

# I. THE U.S. DEPARTMENT OF DEFENSE LICENSE GRANT AND STRATEGIC BLOCKADE

Under standard operating procedures defined by 28 U.S.C. § 1498, the United States Government exercises eminent domain over domestic patents, shielding its defense contractors from civil injunctions and assuming financial liability for infringement.

However, the inventor of the Aguiar Marcano Intellectual Property Portfolio—which comprises 52 foundational patent applications published defensively in *The Architecture of Control* (ISBN 978-1-97-148129-6)—has proactively granted an irrevocable, perpetual, no-fee license to the federal government for all national defense purposes. The United States Department of Defense, specifically through Under Secretary of Defense Emil Michael, has been placed on direct notice of this license grant and is the designated authority administering this license on behalf of the military.

Lockheed Martin is currently utilizing these specific patented architectures to overcome severe computational bottlenecks in their aerospace and quantum programs. By embedding the research, development, and licensing costs of these technologies into multi-billion-dollar government contracts, Lockheed Martin is effectively charging the American taxpayer for intellectual property that the government already possesses the legal right to utilize indefinitely and without cost. Failing to halt the disbursement of funds to this contractor for pre-licensed intellectual property constitutes a gross mismanagement of taxpayer dollars.

# II. Satisfaction of DFARS 227.7004 Administrative Claim Requirements

To compel immediate administrative intervention, this communication strictly adheres to the requirements of DFARS 227.7004(a) and (b):

1. **Allegation of Infringement:** We formally allege that the systems provided and developed by Lockheed Martin directly infringe upon the patent applications detailed

**ISBN 9781971481296**

below.

2. **Request for Compensation:** Because the government holds a free license to this portfolio, our request for compensation is a formal legal demand that the DoD immediately cease compensating Lockheed Martin for the licensed intellectual property.
3. **Citation of Patents:** The infringed applications include USPTO 19/639,219; 19/560,038; 19/562,838; and 19/562,845.
4. **Identification of Procurements:** See Section III below for the specific systems and contracting activities.
5. **Element-by-Element Comparison:** The required claim maps demonstrating precisely how the representative claims map to the accused software and processes are attached to this verified transmission.

# III. Technological Nexus and Targeted Procurements

Lockheed Martin's most critical modernization efforts intersect directly with our proprietary claims, making their government contracts highly susceptible to this administrative review.

## A. F-35 Technology Refresh 3 (TR-3) and the Integrated Core Processor

**Responsible Activity:** F-35 Joint Program Office (JPO)

The TR-3 upgrade is designed to modernize the computational core of the F-35 via a new L3Harris integrated core processor and a new aircraft memory unit, promising a 25x computing increase. Attempting to achieve this massive increase in computational throughput within the strict thermal and weight constraints of an airborne fighter requires abandoning traditional electrical data buses.

- **USPTO 19/560,038 (Optical Computing Architecture) & USPTO 19/562,838 (Energy-Efficient Computing via Clock Speed Reduction):** These patents define a holistic data fabric that replaces electrical I/O bottlenecks with a massively parallel optical interconnect, enabling a reduction in clock speed while maintaining high throughput. Any TR-3 processor upgrades utilizing internal optical data buses to mitigate thermal output directly infringe upon these hardware claims.
- **USPTO 19/639,219 (Central Processing Unit Architecture for Native Parametric and Symbolic Computation):** Upgrading the F-35's core processing capabilities to handle

**ISBN 9781971481296**

advanced sensor fusion natively relies upon our parametric high-radix architecture.

### B. Strategic Quantum Computing and QML Partnerships

**Responsible Activity:** Lockheed Martin Research and Technology / Defense Innovation Unit (DIU)

**Target Leadership:** Craig Martell (CTO) and Valerie Browning (VP, Research & Technology)

Lockheed Martin is aggressively pursuing quantum technologies for aerospace and defense, recently signing strategic collaborations with PsiQuantum (November 2025), Xanadu (February 2026), and Fujitsu (February 2026). These partnerships focus on deploying fault-tolerant quantum algorithms, Quantum Machine Learning (QML), and dual-use AI/ML edge computing.

- **USPTO 19/562,845 (Physically Disaggregated Computing Systems):** To achieve the hybrid quantum-classical workflows required by these new partnerships, Lockheed Martin must utilize a disaggregated architecture where classical GPUs and quantum processing units (QPUs) are segregated yet interconnected via an ultra-high-bandwidth data fabric. This exact hybrid integration model is legally encumbered by our portfolio.

## IV. Statutory and Ethical Mandates

Because Lockheed Martin operates as a publicly traded corporate entity bound by strict compliance and ethical frameworks, we must formally remind your corporate leadership and legal counsel of the following obligations:

**1. SEC Disclosure Requirements for Public Companies**

For Lockheed Martin Corporation, we remind you that if you find yourselves potentially infringing any of the Inventions covered in this intellectual property portfolio, you are legally obligated to assess whether it is necessary to notify your investors and file a material risk disclosure notice with the Securities and Exchange Commission (SEC). The failure to disclose a material intellectual property encumbrance that threatens your core aerospace platforms (such as the F-35) constitutes a severe breach of fiduciary duty.

**2. Attorney Ethical Obligations (Model Rule 8.3)**

A direct reminder is issued to the Chief Legal Officers, General Counsels, and all retained outside counsel receiving or reviewing this notice (including Kevin J. O'Connor): You are strictly bound by your ethical obligations, including ABA Model Rule of Professional Conduct 8.3. You maintain an affirmative obligation to report any unprivileged knowledge of wrongdoing that raises a substantial question as to a lawyer's honesty, trustworthiness, or fitness. If your internal audits reveal evidence of coordinated intellectual property theft or procurement fraud that

**ISBN 9781971481296**

may compromise the integrity of a court, you are ethically mandated to report such conduct to the appropriate professional authorities.

## V. Immutable Audit Trail and Mandatory Administrative Action

This formal claim is delivered via Registered Email (RPost). This service provides an immutable, cryptographically verified audit trail, including proof of delivery, message content, and the exact official time of sending and opening.

As warranted Procuring Contracting Officers, if you receive cryptographically verified proof that a contractor is charging the government for freely available intellectual property, your failure to initiate an audit or halt payments leaves a permanent digital footprint of your inaction. This exposes you to severe administrative and potentially criminal liability for complicity in procurement fraud.

Pursuant to federal acquisition regulations, you are hereby mandated to freeze approvals related to the disputed intellectual property, halt the assumption of clear title for the F-35 TR-3 upgrades, and forward this communication immediately to the Intellectual Property Law Division of your respective branches.

**V/R,**

**ISBN 9781971481296**

## Preamble: Letters sent to the Department of Defense and the SEC on March 12, 2026.

Reinaldo J. Aguiar Marcano
2302 Britton Ridge Drive
Katy, TX 77494
646-299-5724

The Honorable Heidi Shyu
Under Secretary of Defense for Research and Engineering
Office of the Secretary of Defense
3030 Defense Pentagon
Washington, DC 20301

**Re: Notification of Perpetual, No-Fee Technology License Grant to the U.S. Government for a Foundational Quantum Computing Architecture and Warning of Foreign Adversary Action**

Dear Under Secretary Shyu,

I am writing to formally notify the Department of Defense of a critical technological development with profound implications for United States national security, and to inform you of a perpetual, no-fee license I have granted to the U.S. Federal Government for this technology. Furthermore, I must warn you of a persistent, multi-year campaign by the People's Republic of China to misappropriate this intellectual property.

I am a former Google engineer and the inventor of a portfolio of 33 patent-pending technologies that collectively define a new architecture for optical computing and massively parallel data transmission. This invention overcomes the fundamental bandwidth limitations of current electronic systems, providing a data transfer and processing capability that is orders of magnitude beyond existing state-of-the-art. This breakthrough is a critical enabler for the next generation of high-performance computing, and most importantly, it is a prerequisite for the development of scalable, networked quantum computing clusters.

The strategic implications are significant. The nation that first masters distributed quantum computing will hold a decisive strategic advantage, including the ability to compromise nearly all current forms of encryption. Recognizing the immense importance of this technology to national defense, I have taken a deliberate and irreversible step: **within the legal text of the most critical patent applications, I have embedded a formal, perpetual, worldwide, no-fee license for the use of these inventions by the United States Federal Government for all purposes, including national defense.**

This action was taken to ensure that the United States has an unencumbered right to this foundational technology, free from any future commercial or legal constraints from my person. It effectively makes this IP a strategic national asset.

Concurrently, I must report that the Chinese Communist Party (CCP) has been engaged in a relentless and sophisticated campaign to illegally acquire this technology. These efforts have included cyber-espionage, physical surveillance, and direct attempts at coercion against me on U.S. soil.

All technical specifications of the inventions have been published in a publicly available book to establish definitive prior art and to serve as a defensive publication. This ensures that no other entity, including the CCP, can patent this technology for their exclusive benefit. The details are as follows:

- **ISBN:** 978-1-97-148129-6 (hardcover)
- **Title:** The Architecture of Control
- **Downloadable PDF:** Digital Version of Record

I am bringing this directly to your attention because your office is uniquely positioned to assess the strategic value of this technology and the gravity of the threat posed by the CCP's acquisition efforts. My granting of the license is intended to arm the Department of Defense with the legal and technical basis to defend this critical future capability from foreign adversaries. I urge your office to review the

This Registered Receipt™ email is verifiable proof of your Registered Email™ transaction. It contains:

1. An official time stamp.
2. Proof that your message was sent and to whom it was sent.
3. Proof that your message was delivered to its addressees or their authorized electronic agents.
4. Proof of the content of your original message and all of its attachments.

Note: By default, RPost does not retain a copy of your email or this receipt and you should not rely on the information above until the receipt is verified by the RMail system. Keep this email and its attachment in place for your records. General terms and conditions are available at Legal Notice. RMail services are patented, using RPost patented technologies, including US patents 8209389, 8224913, 8468199, 8161104, 8468198, 8504628, 7966372, 6182219, 6571334 and other US and non-US patents listed at RPost Communications.
